The True Historical Jesus

Bertrand Russell was a 20th-century British philosopher and logician who rejected the idea of absolute truth. In his famous 1927 essay "Why I Am Not a Christian," Russell wrote, "Historically, it is quite doubtful whether Christ ever existed at all, and if He did we do not know anything about Him."

It seems incredible that anyone would make such a statement because we know much about Jesus. Evidence for His existence is overwhelming; and it comes from a variety of sources, including Scripture, Christian and secular writings, and even some Jewish works.

One Scriptural source is the Gospel of Luke. Not only was Luke a competent physician, but he was also a careful historian, as evidenced by the introduction to his treatise on the life and ministry of Jesus Christ.:

*Inasmuch as many have taken in hand to set in order a narrative of those things which have been fulfilled among us, just as those who from the beginning were eyewitnesses and ministers of the word delivered them to us, it seemed good to me also, having had perfect understanding of all things from the very first, to write to you an orderly account, most excellent Theophilus, that you may know the certainty of those things in which you were instructed (Luke. 1:1-4)*

Pastor Ponderings. . .

The Quite Hour -

Not I, but Christ lives in me — Galatians 2:20

The wonder of the life in Jesus is this - and you will find it so, and you have found it so, if you have ever taken your New Testament and tried to make it the rule of your daily life—

That there is not a single action that you are called upon to do of which you will be in any serious doubt for ten minutes as to what Jesus Christ would have you do under those circumstances and with the material upon which you are called to act.

The life that takes in Jesus' word, that through the words of Jesus enters into the very person of Jesus, the life that knows Him as its daily presence and its daily law—never hesitates.

Your Pastor,

Bro. Larry
